

LOT: 911 - 4 EMBRYOS VISSTEIN 3STAR ADALICIA RED VG-88 (V

LOT: 911	4 EMBRYOS VISSTEIN 3STAR ADALICIA RED VG-88 (VG-89 MS) X COX RED PP		
4 embryos	♂ COX RED PP CR 7 P RED x LOUIS P RED x SOLITAIR P RED	♀ VISSTEIN 3STAR ADALICIA RED VG-88 RANGER-RED x CROWN-RED x NUGGET RDC	
Embryos available directly from one of the highest-scored 3STAR OH Ranger-Red daughters in the Netherlands: Adalicia Red. Visstein 3STAR Adalicia Red was presented last November in the Ranger-Red daughter group and was named 'Best Daughter' within this group. She is a very attractive, well-balanced first calver with an impressive conformation, proven by her max. VG-89 MS. In addition, she has an outstanding 305-day lactation. Her qualities were visible early on in her genotype. Currently, this Ranger-Red daughter still tests 0.61% fat & 0.24% protein [NVI] and 0.77% fat & 0.30% protein [RZG]. Furthermore, the VG-88 scored is also being used as a bull dam. In just five generations, she traces back to none other than KHW Goldwyn Aiko RDC EX-91, the direct Goldwyn daughter of Holstein icon Kamps-Hollow Durham Altitude RDC EX-95. Her granddam, Willsbro K&L Nugget Aderyn RDC VG-87, is well known as a bull dam and forms the link between this North American cow family and the highly successful Dutch lineage. Many sires are closely related to Adalicia Red, including: • K&L Sv Adrian Salvatier • HLB 3STAR Rio Red • Visstein K&L Money P Red (#6 RB Sire in Germany) • Visstein K&L Ghost Red (#5 RB Sire in Germany) • 3STAR Arjo Red (recently available at Semex) Flushed with Cox PP Red (CR 7 P Red x Louis P Red), the 152 gRZG-testing homozygous polled bull from the ZFZ Minnesota family. Cox transmits high milk production, a highly desirable longevity (127 gRZN), good hoof health, and positive daughter fertility. <i>The embryos are stored in Netherlands. These embryos sell with a GenHotel bullcontract.</i> Current price: Not logged in
