Invest in embryos produced with the fantastic sire **Beyond Hi-Note** (Figaro x EX-91 Deluxe x EX-92 Biggalo), boasting **3514 gTPI** and **734 gPLI**. This Figaro son is currently one of the highest gTPI bulls available for the European market (#18 gTPI genomic bull worldwide!). His dam is none other than *Aot Deluxe Hi-Lighted EX-91 (EX-94 MS)*. Besides being a very stylish cow, she also brings tremendous genetic value. Several very high-testing sons are already available at international AI studs!

The donor is the "magnificent" **3STAR OH Magster**, a Sheepster daughter with no less than **3332 gTPI** and **304 gNVI**—a unique combination of these two genomic systems in one. Based on gTPI, she transmits +4.9 PL, 921M, 0.20% fat, and 928 NM\$. In the Dutch/Flemish system, this Sheepster daughter offers strong longevity, 1360M with 0.42% fat and 0.03% protein, along with positive fertility.

The family behind Magster delivered sires like Tirsvad Predar, Tirsvad 3STAR Mumbai P, 3STAR McRanger, Holbra 3STAR Cojack, and De Oosterhof 3STAR Megastar. In other words: she belongs to the phenomenally breeding Pen-Col Superhero Mistral EX-91 line from the Gold-N-Oaks S Marbella family! This cow family consistently delivers top performers on both the male and female side.

Dam 3STAR OH Magnio RDC started her second lactation earlier this year and is projected to achieve a 305-day production of 12,055 kg milk with 4.62%F and 3.79%P
