MALOU 2

LOT: 946

3 EMBRYOS SATURN RDC X WKF HARMONY MALOU 2

3 embryos

♂ SATURN RDC
 SHIELD RDC x ROVER x PINBALL

♀ WKF HARMONY MALOU 2
 HARMONY x REVOLUTION x ALTAZAZZLE

These embryos are sired by Germany's No. 1 Red Carrying sire: **Saturn RDC** who combines an impressive 160 gRZG with 3321 gTPI and 410 gNVI! A 3STAR OH Shield RDC son tracing back to the renowned Dirigo-Leblanc Juno EX-94 family, Saturn RDC offers a highly versatile genomcs profile.

This made him the perfect mating for donor **WKF Harmony Malou 2**, formerly the No. 1 gNVI B&W female. This outstanding T-Spruce Harmony daughter combines 3247 gTPI, 149 gRZG and an exceptional 442 gNVI, making Malou 2 one of the highest-gNVI B&W females of her age. With her impressive gTPI, she is also among the highest-ranking Harmony daughters in Europe.

The K&L OH Mabel descendant further stands out for her combination of milk and component production, strong health traits and positive fertility breeding values.

The family's potential for milk production is also demonstrated by Malou 2's dam, WKF Revo Malou, a Plain-Knoll Revolution daughter who was classified VG-86 overall as a first-lactation cow. She is currently projected to produce 9,665 kg of milk with 4.90% fat and 3.76% protein in 305 days.

A powerful combination of high genomic indexes, RDC, milk and components, health and fertility – offering an exciting opportunity to breed from this outstanding combination!

The embryos are stored in Netherlands.
