LOT: 948	2 EMBRYOS 3STAR ARJO RED [SEXED] X 3STAR CAUGHT OUR EYE	
2 embryos	♂ **3STAR ARJO RED** REALITY*RC x PARFECT x SPARK RED	♀ **3STAR CAUGHT OUR EYE** MAGIC x HAVENOFEAR x UNIX

A fantastic opportunity to breed from one of the most successful and renowned American Holstein cow families! 3STAR Caught Our Eye traces directly back to the legendary Ladyrose Caught Your Eye EX-95, a multiple All-American winner and three-time consecutive class winner at the World Dairy Expo. Her family consistently produces animals with outstanding conformation and high production, as well as influential breeding animals, including several AI sires.

Caught Our Eye's dam, Genosource Hide Out VG-89, is an exceptional young cow in her own right. Starting off as a milking yearling, she produced 14,801 kg of milk with 4.00% fat and 3.30% protein (1lac); she was nominated as an All-American Milking Yearling, earned the title of Reserve All-National Milking Yearling, and placed fifth at the World Dairy Expo.

Behind her lies a pedigree filled with proven show cows: Caught Your Eye EX-95, Achieverslegacy VG-89, Lexi VG-89, Lea-Ann EX-93, and the legendary Blackrose EX-96.

3STAR Caught Our Eye is an Oakfield Magic daughter directly out of the American-bred Genosource Hide Out, who was classified VG-89 (Maximum Score) before turning two!

At the recent WDE 2026, several family members achieved high placings, including Genosource Lets Dance VG-88—a Delta-Lambda maternal-sister of Genosource Hide Out—who placed second in the Winter Senior Two-Year-Old class.

The embryos are sired by the red Aiko descendant **3STAR Arjo Red** / **SEXED** (Reality RC x Parfect). With 1.41 PTAT (1.55 F&L), an outstanding linear profile (+0.61 Stature), +1.65 Width, and the strengths of the renowned KHW Goldwyn Aiko RC family, Arjo is a sire that can be used very broadly! In Switzerland, he has already become highly sought after thanks to his 124 ITP, high longevity, excellent fertility, strong teat placement, moderate stature transmission, and solid feet & legs structure.
