The embryos are sired by **Haveitall Blakely Hinge** (Blakely x Parfect), one of the most exciting young genomic sires available. Hinge combines more than 3230 gTPI with outstanding type figures, including +2.89 gPTAT, +2.30 gUDC, and +1.80 FLC. He transmits modern dairy strength, exceptional udders, correct feet & legs, and positive production with high fat and protein, making him an ideal match for elite show-oriented cow families while maintaining strong commercial appeal.

Dam to the embryos is a promising Delta-Lambda daughter from the renowned Ms Beauty Black Velvet EX-96 family.

Veronica's dam, Duckett Chief Vanna VG-88, combines strong production with an outstanding pedigree. Behind her stands Duckett Doorman Vape EX-90, followed by the legendary Ms Beauty Black Velvet EX-96 – a multiple All-American and World Dairy Expo Champion with a lifetime production of over 73,000 kg of milk.

The family continues to make its mark today: Veronica's full sister won her class at the Nuit de la Holstein 2026, adding a fresh show success to this deep and proven cow family.
