GENHOTEL

FarmersBid.com

Schedule:

- **Start pre-bidding:**

Tuesday, 28th of April
9.00h at FarmersBid.com

Sale is open to place prior bids.

- **End of pre-bidding**

Thursday, 30th of April
13.00h

- **Start final sale**

Thursday, 30th of April
14.00h at FarmersBid.com

Lots sell, one by one, in catalogue order.

Course of the final auction:

After every bid placed, a bidder is given a minimum of 30 seconds to place a higher bid. If a new bid is placed within the time limit, the timer is reset to 30 seconds. If no new bid is placed during that time, the lot will be automatically closed after the time expires.

The bidding increments that will be used:

- Prices between 0 - 1,500: *minimum* €50 per bid
- Prices between 1,500 - 2,000: *minimum* €100 per bid
- Prices > 2,000: *minimum* €200 per bid
- For embryos, a minimum bid increment of €50 is maintained

The bidding button will always display the last bid. If you have placed a bid, the screen will indicate whether your bid has been accepted and whether you are the highest bidder.

GENHOTEL

How to buy online:

Are you interested in our **FarmersBid Opportunity Sale** offer and want to bid online, and don't have an account yet. The process of registration & online bidding consists of four steps:

Step 1: Register yourself from now on

To create an online bid account

- you visit the website bid.farmersbid.com/register. You will then be redirected to a secured registration page.
- There you can fill in your personal details,
- confirm the terms and conditions and
- then click on the „Register now“ button.

Then you will receive a confirmation e-mail.

Step 2: Wait for verification of your account

- After registration your account needs to be verified, this can take up to two days.
- Once your account has been verified, you will receive an e-mail with more information on how you can create your username and password.

Step 3: Bid online at the auction

- You can login via the login button at the top right of the website FarmersBid.com
- Fill in your username and password.
- This will automatically get you in the bidding system.

Important: Before you can place a bid, you must first unlock the bid button. Unlocking the bid button separately is an additional protection for the buyer. The chance to make an offer by mistake is even reduced. After activating the bid button, you will participate in the auction by a single click on the bid button (no further confirmation of the bid needed).

The bidding button will always display the last bid. If you have placed a bid, the screen will indicate whether your bid has been accepted and whether you are the highest bidder. You can't outbid yourself!

Start pre-bidding on Tuesday, 28th of April 9.00h and closes Thursday 30th at 13.00h. During this time the online sale page is open for placing prior bids.

Start final online sale on Thursday, 30th of April 14.00h. Lots sell, one by one, in catalogue order.

Step 4: You are the highest bidder

If you are the highest bidder, you will receive an e-mail with the confirmation. You will be contacted after the auction, therefore it is important to be available via the telephone number provided in your account.

Do you have any questions and / or comments? Please send an e-mail to contact@farmersbid.com

For technical questions, you can contact our technical help desk on +31 6 24217748.

Sell your livestock on the international stage, FarmersBid.com is your solution!

ONLINE AUCTIONS offer you an enormous potential for the marketing of your cows. They do not limit you to local clientele, but rather reach a wide international audience.

NOTHING CAN REPLACE EXPERIENCE!

We have completed numerous successful cattle auctions with, for example, the following partners: German Masters Sale, VOST, Qnetics, OHG, RUW, WAGYU, RSH, Space, Koepon and many more!

Whether breeding cattle auctions are held by associations or private farms, **FarmersBid** has the online and hybrid auction capabilities that are critical to the success of your auctions!

LIVESTREAMING IN REALTIME

No time delay, and therefore no duplicate bids!

DIVERSE AUCTION FORMATS

- Online auctions
- Hybrid auctions with Real Time Video (bidding onsite or online)
- Studio auctions with Real Time Video
- Simple integration of the online auction platform into the existing web presence of the client
- Breeder's market (online marketplace for breeders)

**Are you interested in working together and would like a consultation?

Terms & conditions

1. These terms are valid for all agreements which are made through this sale.
2. On this agreement the Dutch law applies.
3. The organization of the 1st FarmersBid Opportunity Sale is done by FarmersBid.com (by GenHotel), hereafter called "organization".
4. The party which offers his animals in this sale will be called hereafter as "seller" and the party who buys through this sale will be called hereafter as "buyer".
5. The organization will only act as an intermediary in the realization from an (purchase) agreement between seller and buyer.

How does the sale work

6. It is a traditional English auction. The bidder which has the highest bid at the end of the sale of that particular lot, is the buyer. The FarmersBid Opportunity Sale starts April 28th at 9.00 hour (CET) with the so called pre-bidding. The Final Auction (in catalogue order) will start April 30th at 14.00 hour (CET). If a bid comes in just before the end of the sale, the sale is extended with another 30 seconds. This continues until no more bids are received. You must always place minimum bids as described in the bidding increments under 'Course of Auktion', found at the beginning of this catalogue. More info is to be found on FarmersBid.com. The sale itself takes place on bid.farmersbid.com

7. The bids are in Euros (€). The total bid amount is *excl.* 10% auction fees, *excl.* transportation, health tests, export costs and *excl.* VAT.

8. Every buyer is bound to his or her bid. Bids are accepted until the end of the sale.

9. On disputes, which might arise during the sale, the organization decides.

10. The purchase agreement is a fact at the moment the organization assigns the lot.

11. All risks of the animal shall be the responsibility of the seller until the moment she leaves his or her farm, but this period should take a maximum of 4 weeks after the sale. After these 4 weeks the risk goes over from seller to buyer, even if the animal has not left the farm of the seller yet.

12. The transportation of the animals from the seller to the buyer will take place as soon as possible after the auction has ended, although not before the complete payment from the indebted amount (including sale costs) and exclusively after the organization gives an "okay" by telephone or email for transport. The buyer needs to take care of the transport and takes care of these costs + the costs of extra health tests + certification for export. When the buyer is not able to do the transportation himself, the organization will take care of the transport. All costs will be paid by the buyer.

13. The payment should be made as mentioned on the invoice.

Payment

14. The total amount has to be paid to the organization as mentioned on the invoice.

A. The total amount has to be paid within 14 days after the date of invoice. The ownership stays with the seller until the complete payment of the indebted money and sale costs is effective.

B. The risk of the animal stays unchanged as mentioned in article 12.

C. The lot needs to be paid for (including the sale commission) before the transport from the seller to the new owner. All purchased animals must be picked up by the buyer within 4 weeks after the sale. After that, housing costs will have to be paid at €4/day. If the export requires a quarantine, the quarantine costs will be paid in full by the buyer. When the quarantine ends, the buyer must pick up the animal himself or arrange and pay for transport.

15. Claims need to be notified in writing to the seller within eight days after supply to the buyer.

Excluding liability

16. The organization cannot be held responsible for errors on the website or in the advertisements.
17. The organization cannot be held responsible for visual or non-visual defects, regardless the size or nature of such defect of the animals sold.
18. The organization does not take any responsibility for damage to persons or cases which arises because of or connected to the sale.
19. Buyers, who wish to export their animals, shall make the organization aware of this directly after the auction. All costs and risks are the responsibility of the buyer as from the moment the seller has concluded the export preparations.
20. The indexes mentioned are the latest known.

21. All sale animals are guaranteed negative for IBR gE and BVD-virus. In the case an animal is tested positive the transaction can be cancelled. However the organization does not take any responsibility for the disease free status of a calf or for the farms' health status. The uterus dams of the sale animals are vaccinated for IBR and BVD, so some lots may have antibodies for vaccin (IBR gB) due to colostrum. These antibodies will disappear in time. For export to for example Germany and Denmark sale animals need to be free of IBR gB. These sale animals will stay at the farm at costs of the seller until they are free of IBR gB. Then they will go in quarantine. Some heifers have ringworm at the moment. They can also stay at the farm/loction of the seller/breeder/raiser at costs of the seller, until they are free of ringworms.

22. In the case of (hidden) defects, the costs will remain for the account of the seller. In no case seller or organization can be hold responsible for any damage whatsoever.
23. Every bidder is held to conform to the auction conditions. The act of bidding implicates knowledge and acceptance of these conditions.
